

News Release**FOR IMMEDIATE RELEASE:****D3Corp Participates in Crazy Hat Day to Raise Funds for Children with Cancer**

OCEAN CITY, MD (February 18, 2013) – D3Corp, an Ocean City based web development, e-marketing and print firm, will take part in the Get Well Gabby Foundation’s Crazy Hat Day on Friday, February 22nd, 2013. Crazy Hat Day is an annual fundraiser that supports the Get Well Gabby Foundation, a foundation created locally to support children with cancer. D3Corp hopes that other local businesses will take part in Crazy Hat Day during February, as well.

D3Corp employees have been encouraged to create and wear a crazy hat to work on Friday. Only employees who donate \$1 to the Get Well Gabby Foundation will be permitted to wear a hat. The money collected from Hat Day participants will then be matched by D3Corp.

Additionally, D3Corp will post photos of their employees wearing crazy hats to their Facebook page on Friday morning. Facebook users will have an opportunity to vote for their favorite crazy hats by ‘liking’ D3Corp employee photos on the D3Corp Facebook business page. All Facebook photo ‘likes’ on Crazy Hat Day photos will raise money as well: 1 ‘like’ is equal to \$1 donation. D3Corp will monetarily match all ‘likes’ and donate the proceeds (up to \$2,000).

D3Corp encourages other local businesses to participate in Crazy Hat Day. The Get Well Gabby Foundation was created by an Ocean View, DE family to honor their daughter, Gabby, who passed away from brain cancer in 2011. The Get Well Gabby Foundation raises both money and awareness for childhood cancer research and hopes to help find a cure for pediatric cancer.

To vote in D3Corp’s Crazy Hat Day contest and help raise money for the Get Well Gabby Foundation, visit the D3Corp Facebook page (www.facebook.com/d3corporation) and ‘like’ your favorite crazy hat on Friday, February 22nd, 2013.

D3Corp is the Ocean City area’s largest web development, e-marketing and print firm. D3Corp offers full-service web development, e-marketing, web site design, database programming, e-commerce solutions, mobile websites and apps, social marketing, and print solution services.
